Langruth School Reunion

Submitted by Haraldine Webb

On July 12th, at the home of Haraldine and Bob Webb in Manitou, a school reunion was held for those of us who started school in Langruth in 1946, or were in our grade along our education journey.

L-R: Allan Thompson, Haraldine Magnusson Webb, Keith Johnson, Tony Czeranko, and Brian Einarson.

Missing: Marlene Johannson Cooper.

This picture shows those who started together in grade one and were in the same grade in the same classroom, together, until he/she was finished school in Langruth. However, there were spouses and a few extras present...Sixteen in all. There are some from our group who are now ill or deceased.

For our first two grades we were well taught by Mrs. Helga Jackson. She gave us an excellent grounding in all subjects. When I chose to go back to her for my practical teaching experience, I realized what an excellent teacher she was.

When we were in the grades three, four, and five room, we were fortunate to have another exceptional teacher, Beatrice MacDonald Curran. In grades 7 and 8, we were taught by Hlif Thompson and Wilmer Shynkaruk, both of whom were interested in education. In grade nine, Mr. Lionel Curran juggled three grades, nine, ten, and eleven, and those who studied, did just fine. When I hear teachers who complain about the workload, I like to tell them about Mr. C. Besides, he offered us at least one smile or joke per day.

In 1957, Langruth High School was able to offer grade twelve. There were two teachers for grades ten, eleven and twelve. Mrs. Olive Hall, and Miss Chappel for grade ten, Mrs. Hall and Mr. Mulligan for grade eleven and Mrs. Hall and Mrs. Margie Wilson for grade twelve. Mrs. Hall was a genius with a Math or Science curriculum. Miss Chappel taught both English and Social studies well. Mrs. Wilson was a lifesaver in English and French because we were behind in those subjects. We all excelled in school. Most of us probably would say it is because of Icelandic blood, but an unprejudiced being would say that it was more to do with fine instruction from teachers who taught well in spite of the size of the classes.

We had a wonderful time reminiscing and laughing. At one point, Allan, Brian, and Keith were sharing stories of the things they did in school, but were laughing so hard, they could hardly speak. As we were saying our good-byes after dining at Spotlight Restaurant, Barbara Einarson, mentioned that we had had a wonderful time with no alcohol involved.

Now, we all are seventy-nine years of age. This was our fifth reunion and maybe the last one as there have been deaths and "elder illness" within our group.

Take a walk down memory lane.

BBQ FOR RENT

*Planning a special outdoor function or party
and need a larger BBQ?*

***Commercial BBQ with
pancake grill for rent.***

\$50.00/day

(plus \$40.00 damage deposit)

The BBQ is owned by the LICDC and is rented out with two full tanks of propane. The damage deposit will be returned when the BBQ is returned with two full propane tanks, has been cleaned and is in good working condition.

**Call Phyllis at 204-445-2323 for more
information or to reserve the BBQ.**

Fifty and Beyond News

The Langruth Seniors held their monthly business meeting on July 3rd at the Langruth Municipal Office with five members present. Harry Lazor greeted everyone and asked for the various reports which were passed. There was not Cheer Report due to Ola Czeranko's absence. She mentioned that there weren't many birthdays in July or August.

Harry had brought the Senior's newspaper from Portage but the results from the Seniors Games were not in it yet. Harry will be getting a subscription for that newspaper so we would have it at all our meetings. There are a number of items in it that pertain to us and are of interest.

There weren't too many other things to discuss at the meeting. Harry did remind us about the Austin Thresherman's Reunion which was held July 25th to 28th. There wasn't much talk of the Langruth Fall Fair yet but we did send our donation to the committee. It will be held on August 17th. We hope that there is a good attendance as it is the 65th Anniversary. I know that it hasn't been a good year for gardening but I hope that anyone that has some vegetables will enter them. We did discuss the Harvest Festival and decided to take part as in previous years. The Festival will take place Saturday, September 28th this year. We will have a rainbow auction and Ann Craik will most likely make up the baskets for the prizes.

The summer is a little slower for our club because we don't hold our suppers over summer. Our next meeting will be on August 7th.

Emily Thompson adjourned the meeting. Ann Craik served a lovely lunch which was enjoyed by all.

Talk to you next month,
Teri Soos

Nature Notes

Submitted by Raymond O'Connor

Song Sparrow

Even with its drab plumage, this bold songbird is easy to spot when it perches in the open, trilling its pleasant melody. In flight it pumps its tail up and down. Inhabiting a wide range, this bird is found throughout most of North America and is perhaps the continent's most variable species, with approximately thirty-one subspecies recognized.

The Aleutian race, is so large and dark it looks like a different species. Because of the work of an Ohio bird biologist, the biology of this bird may be the best-known of any songbird on the continent. Juveniles are similar to adults but appear bigger overall with finer streaking.

Song Sparrows live in solitary or in pairs. They may be in small loose flocks in winter, often with other species of sparrows. They forage in trees, bushes and on the ground by picking food off foliage, grass, soil. They also scratch the ground to eat insects, larvae, grains, seeds, berries and some fruits. Coastal species take small mollusks and crustaceans. Males sing from exposed perches to claim their territory.

Incubation is 12-14 days by the female. Young altricial are brooded by the female and stay in the nest 9 – 16 days. They are fed by both sexes. There are 2 – 3 broods per year (occasionally 4 in southern parts of the range).

The Song Sparrow is widespread and abundant to common in brushy areas, thickets, riparian scrub, weedy fields, urban/suburban lawns and forest edges. The species is one of the most frequent victims of parasitism by the Brown-Headed Cowbird.

CFAN MEGA DRAW 2019/2020

News From Here, There and Anywhere

Reporter Teri Soos

Hello Everyone! It is time again to talk about the hot hot summer. I know that everyone is suffering from the heat. Having had no rain to speak of it has been really been quite a tough summer. Even I, who happen to like the heat as a rule, have been suffering from it this summer. The humidity is so high both the day and night it is difficult to breathe at times. It has been so dry we haven't had to cut our lawns for some time. Many people have been watering their gardens to keep them going. Of course the farmers can't water their crops so they are suffering terribly. I happened to notice a lot of the crops are so short. I don't know if the new varieties that are being planted are supposed to be that short but they certainly seem short to me. I don't know how they will be harvested because they will need to be cut so close to the ground. There are a lot of crops that appear to be ripening and it is only the first of August. The farmers are getting ready for harvest. I'm not sure that the crops will be filled out properly to have much of a yield. It seemed that there was moisture in the spring to get everything growing but with the heat, day and night, the crops just can't pull through. The hay is in very short supply. Some people are cutting green feed for their cattle this winter. I have noticed that the number of bales in the fields is very sparse. Unless we get some rain for the second cut they certainly won't have enough hay for the winter season. I'm afraid some people will be forced to sell some of their cattle if they can't source enough feed. Time will only tell how the rest of the summer will be.

If you can imagine, in other parts of the world there are floods. We certainly don't want some of the storms others are getting but we are in need of some rain. In Edmonton there were hail stones the size of a man's hand. The hail broke windows and caused a great deal of damage. I hear that although parts of Europe are flooding they are also having a heat wave. In our northern regions the snow is apparently melting. I guess global warming may be real even though some of our leaders don't believe it. We will need to do what

we can to change this cycle to make things grow again so we can produce food for our population and livestock.

There have been quite a few things happening in our local area. Quite a few people had birthdays and anniversaries in the last little while. To anyone that celebrated a birthday or anniversary we wish you all the best and hope the coming years will be good to you. We had a small birthday party for Tom Thompson, formerly from Amaranth, at the Amaranth Catholic Church. There were people from Alonsa, Sandy Bay and Amaranth in attendance. Donald Toms picked him up and brought him to Amaranth for the afternoon. We had a lovely get together wishing him well for his 80th birthday. We went to Glenella to a fundraiser a little while ago and sat with Valdi and Diane Jonasson. They were going to be celebrating their 57th wedding anniversary in the next few days. They weren't having a party but were planning on going to Haraldine (Magnusson) Webb's at Manitou for a school reunion. I think the family was going together for a family celebration. Marsha and Ernie Soos celebrated their 60th wedding anniversary on the 18th of July. They had a small party with their family in Portage in the spring, I believe. I also heard from Roland and Shirley Johnson who live in Quebec. They were celebrating their 60th wedding anniversary. I believe they had a party as well. Art Johnson and his daughter Lisa and family were going to attend. July and August are traditionally wedding months so to anyone else who celebrated an anniversary, congratulations.

There are some people that have taken a few trips lately. Frank Lasson traveled to Iceland spending a week touring. Frank was happy to have the chance to go to Iceland and submitted a short article about his trip.

The Langruth Fall Fair will be held on Saturday, August 17th. I know that it isn't a good year for showing off things from our gardens but we hope that as many people enter as possible. It is the 65th anniversary of the fair so we hope that people come out to celebrate this milestone.

I'm sure the children from school are having a good holiday. I don't know if they are enjoying the heat but I know it is easier for them than us

News From Here, There... con't

older folks. I'm hoping that everyone that is planning on going to college or university this fall is getting ready for their next big adventure.

The Annual Langruth Vacation Bible School will be held the last week of August. The children always enjoy the classes, enjoy seeing their friends and meeting new children. It is a great week for them.

I understand that there are quite a few bears in our area. I saw on television that there are bears showing up in places where they typically haven't been. I suppose it is because of a lack of food. Please be careful around the bears, especially the mother bears that are protecting their cubs. I don't suppose anyone would consider taking on a bear but the bears won't know that.

I have a number of birds in my garden area (I don't have a garden but I still call it my garden area). If we get a little rain the birds take advantage of it and come to bath in any puddles there might be. They are obviously suffering as well due to the heat and lack of rain.

I heard that the STARS Air Ambulance Fundraiser Supper was very well attended. Unfortunately I couldn't go that evening but I know that a number of people did go and enjoyed the meal and presentation. We give everyone a great deal of credit for supporting this evening and our community's donation to STARS.

We once again send our condolence to the people at Alonsa who suffered through the tornado a year ago. It has been quite a year of rebuilding everything that was damaged and lost. We certainly hope they don't have to experience something like that again. Condolences to the Furrie family on the loss of Jack Furrie during the tornado.

I have a number of families to send sympathies to this month. I heard that Art Roberts, Ruth Hildebrand's husband, had passed away earlier this year on April 25th. A celebration of life was held on June 4th in Winnipeg and a few people from our area attended. Many will remember the Fedora's who operated our hotel for many years. They owned the hotel when I started school. I heard that Jack, one of the boys that started school with me, had passed away. Also, we send our sympathies to the Arksey family who lost

Harley's wife Mary recently. She hadn't been well for some time but suddenly passed away July 28th. I heard that Bonnie Waterston's daughter, Kennedy, passed away on July 6th. She was only 16 but had a heart condition and hadn't been well. Our deepest sympathy to Bonnie and the Waterston family on this tragic loss, and also to anyone who has recently lost a family member or friend. We hope that memories of happier times will see them through the coming days.

Please let me know what you have been up to this summer. It is always fun to hear about your summer visits with friends and family or the places you have been. Send me a note or give me a call. Very soon the Asham Stompers will be at Reedy Creek. They always draw a great crowd and have a fun weekend. Let me know if you attend and how it was.

Until we talk again,
This is Teri Soos.

Calling Vendors & Sales Consultants!

The Langruth Harvest Festival is inviting vendors and sales consultants to participate in the **Langruth Harvest Festival** on Saturday, September 28th, 2019 at the Langruth Sports Grounds/ Skating Rink.

This is a great opportunity to promote and sell crafts & hand-made goods, products, produce, garage sale items and more.

Rollie and Shirley Johnson Celebrate 60th Anniversary

Submitted by Shirley Johnson

We wish to announce our 60th wedding anniversary on June 20, 2019. We celebrated in Montreal on Saturday, June 22nd. Those in attendance included Rollie's brothers, Arthur L Johnson of Langruth (now residing in St. Rose) along with his daughter Lisa, his son-in-law Gerry, and granddaughter Kelsy LePla (also of St. Rose) and Allan Johnson and his wife Joanne of Gatineau, Quebec. Our children were also there; our daughter Randi of Vancouver, and sons Arthur with his wife Sandra from Montreal, Dana from Montreal, and Roland (Chic) from Whitby, Ontario, and our grandchildren Alysha and Mitchel Johnson, also from Whitby. Many of our friends were also present to make the evening a grand occasion. We want to thank everyone for coming, especially all those who traveled such a distance, to make this event so memorable for us.

Shirley and Rollie Johnson

Langruth Views is available free of charge at the Langruth Post Office and MJ Stop and Shop.

An Icelandic Vacation

Submitted by Frank Lasson

Frankie Lasson, Rob Lasson, Kevin Johnson and Jeff Ryan (from Newfoundland) spent from July 1st to July 8th visiting Iceland. After such a long flight it was a relief to be landing at Keflavik airport.

After arrival the next few days were spent touring the beautiful city of Reykjavik doing a lot of walking, trying to see as much as possible. We were amazed by the number of clothing stores, souvenir shops and eateries and of course, pubs and night clubs. I was fortunate to meet two of my relatives I had never met before, Heidrum Rosa Sverrisdottir and her sister Mathildur Gudrun Sverrisdottir. We spent much time working on family histories dating back to the 1600's.

The next day the four of us went on an all-day bus tour northwest to a peninsula called the Black Beach where a British ship sank in 1948. The rusted iron spread out for miles. On our long walks the noise from the seagulls and other birds was deafening. People from all over the world are met on these tours. There were people from Florida, Denver, Australia, Connecticut and India. On our tour it was not hard to notice what a beautiful country Iceland really is. Many call it the most beautiful country on the planet, no pollution, crystal clear rivers, waterfalls and beautiful snowcapped mountains.

Travelling back to Reykjavik we noticed many farmers baling hay - all plastic wrapped. Horses and sheep were quite prevalent. The horses confined in pastures but the sheep scattered all over. The bus driver told us that some are hit on the highway. On our return we travelled through an under the lake tunnel for six kilometers.

Vacation was coming to an end so we decided to check out happy hour downtown. The weather was so nice everything was outside. A wedding was taking place at the same time so everyone was having a great time. Early Monday morning it was up at 4:00 am to catch the bus to the airport which is approximately 45 miles away.

Some dreams do come true, the dream of visiting Iceland someday. We all had a great time.

Obituary: Mary Arksey

Unexpectedly, on Sunday, July 28, 2019, Mary passed away at the age of 63 years.

Mary was born on September 10, 1955 in Winnipegosis. She moved to Winnipeg at age 6. Mary attended Tech Voc to take business training. Over the years she worked at several trucking companies.

Mary enjoyed being outdoors. Trips to Langruth always included drives out in the country. In the winter, she enjoyed ice fishing immensely.

Mary is survived and will be lovingly remembered by her husband Harley, as well as other family members and friends.

Donations may be made to Diabetes Canada, 401 – 1 Wesley Avenue, Winnipeg, MB R3C 4C6.

Local Beach Destination

Hollywood Beach
Lake Manitoba

4 miles east of Highway 50
on Road 100.

Beautiful sand beach along Lake Manitoba. Located in an important bird watching area. Awaken to the sounds of gulls, pelicans, and blackbirds. Excellent area for bird watching and wind surfing. Shallow water makes it a good spot for families with young children. Washrooms, fire pits on site. No running water, firewood, shops or electrical hookups on site. 'Do-it-yourself' style camping- no official campsites marked out. Dogs are not allowed on the beach - must remain in campsite
