Canada Day Fun at Hollywood Beach

Canada's 153rd birthday was celebrated at Hollywood Beach with activities and fireworks. The beach was the perfect place to be after another day with scorching temperatures.

The festivities organized by Nicole Sellers, Leisure & Recreation Administrator with the Municipality of WestLake-Gladstone, began at 6:30 pm. Following COVID-19 recommendations, everyone participating was reminded to hand sanitize and practice social distancing.

The sand at Hollywood Beach is great for building sand castles. Supplies were available for making sand castles and playing other games on the beach. Canada Day creativity was captured in the ceramic tile painting activity. The painted tiles will be mounted and sealed and then displayed in local parks to remember Canada Day at the beach.

Hotdogs cooked over the open fire, chips and drinks were available for purchase. Thank-you to the Gladstone Coop for a donation to this event. The donation was put towards purchasing food and cleaning supplies. Proceeds from the sales will be split between the Langruth Rec. Committee and WestLake Gladstone Recreation. Thank-you to everyone for supporting this fun day by purchasing hot dogs, chips and drinks.

Families from the local area and neighboring communities enjoyed the fireworks at the end of the evening. Thank-you to volunteers from the Lakeview Fire Department for setting up and firing off the fireworks display. Fireworks were provided by the Municipality of Westlake Gladstone through a grant. The fireworks were a perfect ending to a great day at the beach.

Amaranth Gospel Mission

Service at 10:30 AM unless otherwise stated.

Amaranth Gospel Mission Services have resumed with social distancing. Contact Pastor Jay Foster for more information.

Langruth Community Church Service & Picnic

A community ecumenical service was held at Einarson Park on June 28th with social distancing. Pastor Phyllis Thordarson and Lay Worship Leader Ann Craik led the worship service. Members of the congregation also read prayers and scriptures. The message was based on the story of feeding more than 5000 people with five loaves of bread and two fish. It was a message of sharing and caring for your community, breaking down barriers, inclusion and welcoming. Thank-you to Phyllis and Ann for their work in organizing the service.

A time of fellowship was enjoyed by all after the service. Hot dogs, potato salad and macaroni salad were served for lunch.

The offering was donated to the Gladstone United Church Food Cupboard. Anyone residing in the Municipality of WestLake-Gladstone can access the food cupboard if they are in need.

Fifty and Beyond News

The Langruth Seniors didn't have monthly meetings in May or June due to COVID-19 precautions. We usually take off the months of July and August so we will see if we can start having meetings again in September. Of course there are no monthly suppers in July or August. We hope to resume the suppers in the fall.

Both the Seniors Games and the Seniors Regional Meeting have been cancelled also due to COVID-19 precautions.

Everyone has been staying home and maybe doing some gardening if they can. It had been very dry up until recently. I suppose everyone got their gardens started by watering them. We finally got about 2 ¼" of rain last weekend. We are fortunate to not have gotten the amount of rain they got on the west side of the province. There are a number of areas flooding right now. The pictures I have seen on television don't look very good. Let's hope that we continue to get rain without flooding.

I hear that some of the churches have resumed services now that we are permitted to have 50 people indoors. The Catholic Church in Amaranth has held services for a couple of weeks. It is nice to be able to go to church rather than watching it on television.

Until I write to you next time, by for now. Talk to you next month.

Teri Soos

Nature Notes

Submitted by Raymond O'Connor

American Redstart

Birders enjoy watching this vivacious bird as it flits to catch insects or sits on a perch, partially spreading and drooping its wings and spreading its tail. Other warblers pump or flick their tails, but this bird fans its tail and holds it there for a second. The male's tail can be either orange and black or yellow and dusky olive-gray. This woodland inhabitant is one of the most common warblers nesting in North America. Juvenile males look like females but with an orange wash on the sides.

The American Redstart lives in solitary or in pairs. It is tame, conspicuous and sings often. It responds to squeaking or pishing by birders. The American Redstart sallies into the air to catch insects, perching between hawking events like a small flycatcher. It gleans food from branches and foliage. It sometimes hover-gleans eating insects, caterpillars, spiders, berries, fruit and seeds.

The nest is made of grasses, pieces of bark, rootlets and plant down decorated with lichen, birch bark and spider's silk and lined with feathers. The nest is built by the female in the fork of a tree or bush, usually 3 – 6 metres above ground (but ranges 4 – 21 metres above ground).

Incubation is about 11-12 days by the female. Altricial young are brooded by the female. They stay in the nest 9 days and are fed by both sexes. They have 1 brood per year.

The American Redstart is common to fairly common in wet deciduous and mixed conifer-deciduous woodlands with understory, woodlands edges, riparian woodland and second growth.

They are widespread but declining in the Midwest, Great Lakes, the Northeast and the Maritime Provinces.

This bird is a common cowbird host. It is vulnerable to habitat loss caused by deforestation of second-growth forests.

COVID-19 NOVEL CORONAVIRUS

Reprinted From:

World Health Organization (<https://www.who.int/>),

Province of Manitoba (<https://www.gov.mb.ca>)

June 30th marked six months since the World Health Organization (WHO) received the first reports of cases of pneumonia of unknown cause in China. The six month anniversary coincides with reaching 10 million cases and 500,000 deaths world-wide. This is a moment to reflect on the progress made and the lessons learned and to recommit ourselves to doing everything we can to save lives. No one could have imagined how our world could be affected by this new virus.

All over the world we have seen heartwarming acts of resilience, inventiveness, solidarity and kindness. But we have also seen concerning signs of stigma, misinformation and the politicization of the pandemic. For the past six months, WHO has worked relentlessly to support all countries to prepare for and respond to this new virus.

Although a vaccine will be an important long-term tool for controlling COVID-19, there are five priorities that every single country must focus on. First, empower communities. Every individual must understand that they are not helpless – there are things they should do to protect themselves and others. That includes physical distancing, hand hygiene, covering coughs, staying home when ill and wearing masks when appropriate. Second, suppress transmission. There are steps that all countries can take to suppress the spread of the virus. The single-most important intervention is tracing and quarantining contacts. Third, save lives. Early identification and clinical care saves lives. Fourth, accelerate research. There is still a lot to learn about this virus. And fifth, political leadership. National unity and global solidarity are essential to suppress transmission, save lives and minimize the social and economic impact.

WHO will continue to serve countries with science, solidarity and solutions. The critical question that all countries will face in the coming months is how to live with this virus. That is the

new normal. Although many countries have made progress, globally the pandemic is speeding up.

In Manitoba the number of COVID-19 cases reached 325 on July 1st. Phase 3 of the plan to further ease public health restrictions and safely restoring services came into effect on June 21st.

Phase 3 was based on public health advice, consultation with key sectors and feedback from the public. Some of the key changes were public gatherings of 50 people are allowed indoors and 100 people outdoors where a separation of at least two metres, except for brief exchanges, can be maintained. Anyone entering Manitoba from western Canada or Northwestern Ontario is not required to self-isolate for 14 days if they are asymptomatic and have no known exposure to COVID-19. Travelers from all other Canadian jurisdictions will need to continue to self-isolate for 14 days after arriving in Manitoba. Restaurants may fully operate if a separation of at least two metres can be maintained between patrons, except for brief exchanges.

As businesses and communities expand the services they offer all Manitobans must continue to practice physical distancing with others outside their households, wash their hands often and stay home when they are feeling ill.

Manitoba is also planning the return to in-class learning in September for all students while continuing to follow public health advice. This means the K-12 system must be ready to adapt to changing public health conditions at any time.

While we can take pride in the progress made, Manitobans must remain vigilant

COVID-19: JULY 1ST, 2020

CANADA: 104271 CONFIRMED CASES
8615 DEATHS

MANITOBA: 325 CONFIRMED CASES
7 DEATHS

News From Here, There and Anywhere

Reporter Teri Soos

Hello Everyone! I'm back again with a little news. We had a long dry spell where we seemed to miss all the rains. We certainly were hoping for some rain for the gardens and crops. We did get a few nice rains in the last week. We didn't get as much rain as in southwestern parts of Manitoba. They certainly have had a number of heavy rains. Many areas are flooding and there was even a tornado touch down in the Rivers area. I saw some pictures of grain bins tipped over and other damage to buildings. It is a shame that all the nice crops are under water. I'm not sure if they will recover or not. It is hard to watch it all on television. I guess we can't complain after getting a nice amount of rain. We did lose our power for about an hour or so this week but it came on before we had to tend to sump pumps, refrigerators and freezers. Let's hope that the worst of the storms are over and we can get on with our summer season.

I watched the cement truck come and pour cement for Allen Ewen's garage floor. I think the humidity was so high that it took a long time for the cement to dry. I'm sure he will enjoy the new floor when he can use it.

A few people will be moving this summer. I heard that Les Arksey will be moving to Brandon to live with his grandson. I am also planning on moving. My sister had wanted me to move earlier but I wasn't ready yet. Now I feel like I am ready to move from my home into Gladstone. I am not able to keep up with things around here anymore. They tell me that the suites are quite nice there. My nieces and nephew have been helping me organize my things – and I do have a lot of things – before my move. I hope to sell my house this summer. John Larson (who bought Art Johnson's place) seems to be interested in buying properties to fix up for people who might be looking to buy or rent in Langruth. There are some teachers working in Sandy Bay that have a long commute that might like to live closer to their work.

We have had quite a stretch of hot weather. I rather like the heat but there are many people that are suffering because of it. We hope that we have some temperatures that everyone can enjoy.

To anyone that had a birthday or an anniversary we hope that you had a really good day and that you were able to celebrate with some of your family. We are hoping for a better year for celebrating next year.

I am really sorry that we can't celebrate Manitoba 150 this year. I've heard that most of the celebrations that were planned will happen next year. We are hoping that a vaccine for the COVID-19 virus is found soon so we can visit more of our friends and family and get back to normal.

I have noticed a few people still wearing masks as precautions. I do think it is a good idea to prevent spreading the virus and/or picking it up. People in the United States seem to be having a hard time understanding that they need to take the precautions to stop the spread of the virus. The number of cases in the United States continues to grow each day. We are lucky to have not had any cases of COVID-19 in our area. Let's keep up the good work.

To anyone that is sick or under the weather we hope that you will have better days and will be back on your feet before too long.

To all who lost family or friends in the last while we send our deepest sympathies and hope that memories of happier times will help you through the coming days. We recently lost a former Langruth resident. Marsha Lasson had not been well for some time and passed away on June 18th. Marsha had been living in Portage la Prairie. Marsha grew up in Langruth and raised her family here with her husband Joe. Marsha was a nurse in the area for many years. Her sons are both police officers but on their days off they are doing some farming in the area. A funeral for Marsha was held on June 27th at Island Park in Portage la Prairie. Deepest sympathies to all of the Lasson family. Thankfully I have not heard of others passing in the last while.

July 1st has come and gone. Many communities didn't have their regular celebrations because of COVID-19 precautions. Hopefully next year all those celebrations will resume. One celebration in our area was held at Hollywood Beach. I didn't get out to it but I did hear that a number of people went to enjoy the festivities. It was a great location for this because

News From Here, There... con't

there would be enough space for people to keep their distance from each other and still enjoy the fireworks. There were also a few people that had their own fireworks for their families to enjoy.

There isn't a great deal more for me to tell you right now. I know that the farmers and gardeners are tending to their crops and gardens. Hopefully we get just the right amount of rain. I'm sure that haying will start just as soon as we have a little dryer weather. We are hoping that everyone is able to put up enough feed for the winter so they don't have to purchase more come winter. I hear that the strawberries and saskatoons are starting to ripen. Maybe we will get a nice feed of berries in the next little while.

I will be writing one more column for the month of August. I'm not sure if anyone else would like provide a short community news column or not. We will work on it and have more details next month.

That's all for now,
This is Teri.

Einarson Park Campground

Einarson Park Campground is situated within the Town of Langruth. Accommodates both RVs and tents. A number of sites have electrical hook ups.

To book your reservations please call 204-385-2332. Available on a first come, first served basis.

Rates:

- \$25.00/night with electrical hook up for RVs.
- \$7.50/night without an electrical hookup for a tent in a designated area.
- \$20.00/night with electrical hook up for RVs staying more than 15 days.

Payment can be made at the Municipal Office in Gladstone or a drop box is available at the park.

Hollywood Beach Campground

Hollywood Beach Campground is located northeast of Langruth on Road 100N at Lake Manitoba. No services are available.

No reservations required. Accommodates both RVs and tents. Available on a first come, first served basis. Free.

Langruth Elementary School News

Principal's Message

The 2019-2020 school year has come to an end. This school year did not end anything like we thought it would! It has been different and challenging. But it has also taught us so many things, like not to take the little things in life for granted, how lucky we are to get to go to school/work, and how invaluable the power of human connection is. We have missed our students so much over these past few months!

Thank-you to the parents for your support. As always, you play an integral role in your child's education. We would not have been able to do it without your help in navigating distance learning. Thank-you to the staff for constantly ensuring the best for the students.

Thank-you to the students for your hard work and enthusiasm. You make Langruth Elementary School such an amazing place to be! Know that no matter where you end up in life, you come from a school community that cares deeply about each and every one of you.

As many of you know, my family will be growing this summer. I have made the difficult decision to step down from my role as principal in order to focus on my family and classroom teaching. I am so thankful to be part of this amazing school and community. You have welcomed me with open arms and patience as I learned how to navigate this role and I am eternally grateful. I am so proud and honored to have been your principal.

Mrs. Emerson

2020 Awards Ceremony

The end-of-the-year Awards Ceremony was held on June 24th. Due to COVID-19 regulations the Awards Ceremony was held outdoors where families could practice social distancing.

Each student was recognized for their accomplishments through this very unique school year. The Langruth Elementary School PAC generously donated year-end gift bags for each student. Each student received a monogrammed bag and water bottle, a yearbook and a gift certificate for an ice cream cone.

Local W.M.C.I. Grade 12 Graduates

Congratulations to all the graduates on your achievements and best wishes for your future. W.M.C.I. was able to hold its graduation with a Grad Parade on June 19th, 2020. The grads chose their mode of transportation to use in the parade. The graduation stage was located at the 4-way stop downtown Gladstone. Each grad had their own moment on the stage to receive their diploma and have their future plans announced along with any awards they had received. Once everyone graduated, Ms. Alexander thanked all who came out before the parade continued past Third Crossing Manor and Centennial Apartments.

This year's local W.M.C.I. Grade 12 Graduates were:

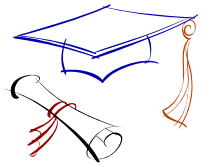

*Draeden Aitkens
Eirikur Johnson*

*David Johnson
Sydney Strocen*

Graduates Corner

The Graduates' Corner of the Langruth Views is dedicated to publishing pictures and information about Langruth and area students who have graduated from junior high, high school, technical trade, and other post-secondary education institutions. Please make sure to submit pictures and information about your graduating students to the editor so it can be included in an upcoming issue of the Langruth Views. Regular submission rates apply.

Langruth Receives Grants

Sources: Eileen Clarke, MLA Agassiz;
Brandon Sun, June 12, 2020

On May 22nd projects to receive funding from the 2020 Manitoba Sustainable Communities Fund were announced. The Honourable Rochelle Squires and staff of Municipal Relations approved many projects throughout the constituency of Agassiz. The Langruth Rec. Committee was pleased to be chosen for a grant to complete energy efficiency upgrades at the Langruth Skating Rink.

On June 10th the provincial government announced grants going out to heritage buildings in the constituency of Agassiz. The Grace Evangelical Lutheran Church in Langruth, built in the early 1900s, will receive a grant to repaint the church.

\$50.00/day

(plus \$40.00 damage deposit)

The BBQ is owned by the LICDC and is rented out with two full tanks of propane. The damage deposit will be returned when the BBQ is returned with two full propane tanks, has been cleaned and is in good working condition.

**Call Phyllis at 204-445-2323 for more
information or to reserve the BBQ.**

Langruth Community Hall

The Langruth Community Hall is available for rent at very affordable rates.

Rental limited to events included in Manitoba's Phase Three of Service Restoration.

All COVID-19 restrictions must be followed.

For more information or to reserve a date contact:

Sheila Olson

Phone: 204-445-2228
